

AWARDS FOR €220 MLN IN THE CORE BUSINESS

- **EPCC contract granted by Total Raffinage for the realization of a new Hydrotreatment Unit for the Donges Refinery**
- **Other awards for engineering and procurement services**

Milan, 11 March 2020 – **Maire Tecnimont S.p.A.** announces that its main subsidiaries have been granted several awards for a total amount of approximately **€220 million** for engineering and procurement services, as well as EPC activities. These contracts, awarded by some of the most prestigious international clients, have been granted mainly in Europe.

In particular, KT – Kinetics Technology S.p.A. has been awarded the ISBL Package, in the framework of the HORIZON Project, by Total Raffinage France, part of Total Group, a major energy player active in more than 130 countries. The project mainly consists of a new Hydrotreatment Unit on an Engineering, Procurement, Construction, and Commissioning (EPCC) basis to be realized in the Donges Refinery, in Western France. The Hydrotreater will have a capacity of 40 thousand barrel per day. Project completion is planned in 2023. This new achievement – which is the third project for Total in the last decade – confirms the capability of KT to be considered the contractor of choice in the refining business for a number of world class clients.

Pierroberto Folgiero, Maire Tecnimont Group CEO, commented: *“These awards, including that by a prestigious client such as Total, reinforce Maire Tecnimont positioning in the core business and are another milestone in our technology-driven development strategy.”*

Maire Tecnimont S.p.A.

Maire Tecnimont S.p.A., a company listed on the Milan Stock Exchange, leading an international industrial group which is a leader in the transformation of natural resources (plant engineering in downstream oil & gas, with technological and execution competences). Through its subsidiary NextChem it operates in the field of green chemistry and the technologies to support the energy transition.
